

# GEORGII SHYRIAIEV

## PROFILE

Hello, I am a front-end developer with experience in web development, specializing in HTML, CSS, and JavaScript. I also have experience working with PHP, WordPress, Laravel, Tailwind, React, Rest API, and Gulp.

I enjoy creating clean, elegant, and straightforward code that provides better user interaction and understanding. I always strive to help with the development of better web applications, ensuring code validation and debugging with debugging tools, as well as providing feedback and thorough project analysis.

I value openness and friendliness in the team because it helps us achieve better results and develop as professionals. I am ready for a challenge because I always aim to improve my skills and become a better front-end developer.
